Allowable Subject Matter

Claims 1-31 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 28, the prior art of record, taken alone or in combination, fails to disclose or render obvious the method for operating a device or a device itself for measuring the relative displacement between two members comprising a fiber optic readhead arrangement positional relative to a scale grating pattern to provide an interference illumination field comprising light and dark fringe zones that extend along a direction approximately perpendicular to the scale grating pattern, in combination with the rest of the limitations of claims 1 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
